Yaffa And Associates Takes A
Pragmatic Approach To Family Law

“If you know what is realistic, you can achieve the best outcome by having a strategy that works within realistic parameters and gives you optimum peace of mind.”

For those struggling with divorce and other family law issues, it is crucial to receive the finest legal representation. The team of professionals at Yaffa and Associates is renowned for its unique approach of making sound legal decisions while helping clients to regain their wellness and peace of mind.

Under the direction of Doreen Yaffa, one of a handful of attorneys in Boca Raton who is Board Certified in Marital and Family Law, a team of attorneys, paralegals, forensic specialists and support staff works aggressively on behalf of clients to achieve each individual

or personalized goal.

“It is essential for us to truly understand our clients’ ideal outcome and how they view the process,” Yaffa says. “This allows us to bring them to realistic and strategic resolutions that work best for them.”

With the understanding of how challenging the process of divorce can be, the professionals at Yaffa and Associates help their clients with critical and educated decisions in aspects of the full gamut of financial and emotional implications.

“There are often complex calculations to be made,” Yaffa says. “Should you go to trial over an issue? Can you find alternative solutions during a

negotiation? We help clients look at the total cost and benefits of strategies, as measured in dollars, peace of mind and emotional wellness.”

Few divorce cases should have to go to trial, she notes, because it is a lawyer’s fiduciary responsibility to assist clients in understanding early in the process how the court may likely rule and structure settlement agreements with that in mind.

“If you know what is realistic, you can achieve the best outcome by having a strategy that works within realistic parameters and gives you optimum results and peace of mind,” Yaffa says. “While other desired outcomes you can’t put a price on.”
